Giphy:Sports | View Project: kaylahimmel.github.io/GiphyProject
- Gif searching app with sports theme.
- Personal project built using jQuery, HTML, CSS, and Ajax.

Experience

Portland Community College, Portland, OR

Graphic Designer April 2012 - Present

Responsibilities included creating design assets for digital and print use, leading internal meetings, collaborating with department heads to develop marketing campaigns, and mentoring design interns.

Key Accomplishments:
- Spearheaded website revamp project, working directly with the Web Development team and providing project requirements, Adobe XD wireframes, content and web assets, and logic for the various order forms. Also tested entire site to ensure expected functionality and performance.
- Served in a project management role, working with the IT and Marketing departments in creating a new college-wide printing program.

American Reprographics Company, Portland, OR

Document Control Specialist, January 2011 - August 2012

Duties included running printers and machinery, training new employees, processing e-commerce orders, and setting up databases of engineering construction schematics.

Key Accomplishments:
- Provided continuous updates to the physical planroom of available construction projects in the area for the National Association of Minority Contractors to bid on.

Fedex Office, Portland, OR and Spokane, WA

Center Specialist and Center Production Coordinator, September 2007 - January 2011

Duties included cashiering, customer service, processing e-commerce and in-person orders, running printers and machinery, and performing banking and accounting report duties.

Key Accomplishments:
- Entrusted with training all new employees.
